PROFILE SUMMARY

Associate Professor at PERI Institute of Technology, Chennai, with over 11 years of teaching experience in electronics and communication engineering. My research focuses on wavelet-based image segmentation, medical and satellite image processing, signal processing, and VLSI design. I use MATLAB to develop and evaluate algorithms for filtering, feature extraction, noise reduction, edge detection, and pattern recognition.

RESEARCH INTERESTS

Wavelet-based image segmentation, Medical image processing, Satellite image processing, Signal processing, VLSI design

RESEARCH METRICS

Citations: 0 | 0
Publications: 14 (Journals 6, Conferences 7, Book chapters 1)
Research output: Patents: 2 | 0 | 0

EDUCATION

Ph.D. in Electronics and Instrumentation Engineering 2018
Annamalai University
Thesis: Investigations on Wavelet based Image Segmentation techniques

M.E. / M.Tech in VLSI Design 2011
Kamban Engineering College, Tiruvannamalai | 7.3 CGPA

B.E. / B.Tech in Electronics and Communication Engineering 2008
Kamban Engineering College, Tiruvannamalai | 70.2%

PROFESSIONAL EXPERIENCE

Associate Professor 03 October 2024 - Present
PERI Institute of Technology, Chennai
- Teaching and research in Electronics and Communication Engineering; research interests include signal and image processing and VLSI design.

Assistant HR Manager 01 January 2022 - 01 October 2024
Arunai Medical College and Hospital, Tiruvannamalai

Assistant Professor 04 July 2011 - 24 December 2021
Arunai Engineering College, Tiruvannamalai

PATENTS

- "Energy Harvesting Communication modules for IoT devices" - 19 November 2024
- "Computer-Implemented System for Analyzing Human Brain Images using Functional Imaging Data" - 27 March 2020
